

Aero Sekur at IDEF09
Stand Number 302B

Aero Sekur, the safety system and flexible structure specialist, will exhibit a new generation of NBC and combat clothing at **IDEF09**. Advanced materials combined with innovative construction and design techniques have resulted in defence apparel that offers significant weight and performance benefits compared to existing equipment.

Capability in the field of advanced defence clothing is confirmed with Aero Sekur's work as part of the "SOLDATO FUTURO" programme. The industrial collaboration comprises market leading development companies working to produce the Italian Future Soldier. Aero Sekur has specific responsibility for the development of NBC masks/canisters, NBC combat suits including NBC gloves and boots, combat suits, battle dress uniforms, combat boots, sniper suits and over-garments.

Details of Aero Sekur's full defence market product portfolio will also be available at **IDEF09**, including:

- Respirators and masks
- NBC suits
- Combat suits
- Collective filtration systems

- Helicopter liferaft and flotation systems
- Fuel tanks
- Protected inflatable structures

Aero Sekur has extensive manufacturing and R&D facilities in Italy and representation worldwide. The company has a track record dating back over forty years supplying the defence sector.
