Eurocopter-HAIG has selected Aero Sekur to supply the external life-raft system for the EC175-Z15 helicopter. The landmark contract represents Aero Sekur's first appointment for Eurocopter-HAIG. As an established supplier of life-rafts and partner of RFD Beaufort, Aero Sekur life-rafts will be deployed on the EC175-Z15.

Aero Sekur's solution for Eurocopter-HAIG will enable remote deployment of life-rafts stowed in aerodynamic canisters, located outside the helicopter cabin.

Eurocopter-HAIG appreciated Aero Sekur's response and reactivity during the bidding phase.

The Eurocopter-HAIG contract extends the portfolio of external life-raft systems for Aero Sekur, specialist supplier of safety systems and advanced flexible structures for aerospace and defence applications. Aero Sekur has also supplied a life-raft system for the Agusta Westland AW139 Medium Twin-Engine Helicopter.
